Velocity KARTS

Harness The Power Of Nature

The School Day to Blow Them Away!

Blokarts

We operate the largest fleet of Kiwi invented blokarts in the Southern hemisphere, comprising 16 single and 5 two-person karts, on a purpose built track. Our team of instructors deliver great outcomes for children and young people, constantly monitoring them and the conditions. We understand this can be a jump to the uncomfortable zone for some but are confident we can overcome any initial apprehension and have almost everyone wearing the "blokart grin".

Blokarts

From year 4 to year 13 many schools, including groups visiting from overseas, and the international departments of local schools, visit us annually, biennially or even weekly as a school sport.

"Blokarts are one of the most accessible adventure type activities worldwide. It's our goal to ensure that no one is left on the sideline."

We are extremely proud of successfully introducing blokart sailing to many people who, due to restrictions or disabilities may not be able to ride a bike.

Driftkarts

But Wait - There's More....

Electric Driftkarts

Prepare to slip, slide and spin around every corner on our dedicated circular, concrete track. Another unique, Kiwi invention, these electrically powered karts challenge everyone to let loose and produce the perfect sideways drift. Great for ages 12+and 1.4m tall.

Human Foosball

Just like the table version except you are the players. This brings out the competition amongst any group, often whilst laughing and shrieking uncontrollably. A maximum of 12 players are in the arena at once.

Human Foosball

Make a Day Of It

School groups can visit Velocity Karts for a single activity eg blokart, or a half or full day. Let us provide a range of activities that will keep the group actively entertained in a safe outdoor environment.

Our team focus on managing the Blokart and Drift Trike tracks and we provide a handy rotation schedule for school staff and helpers to guide the students through the range of additional self paced, games and team building activities.

Our hilarious and fun filled games and activities emphasise "having-a-go" while encouraging a bit of friendly competition. These include: **Six Person Skis, Molki, Gutterball, Corn Hole, Pétanque, Quoits, Tug O' War, Kart Assembly, Volleyball, and Mini Golf (coming soon).**

We have a brief pre-prepared self paced **Wind Programme** that a teacher or parent could guide the students through before the blokart session. This involves using anemometers, compasses, wind socks etc and helps them to understand how the wind affects their blokart sailing. It's very light but great contextually and is included in the rotations above.

Depending on the numbers of your group we generally suggest you organise students into groups of 10 to 12 as all activities are designed to accommodate that number and rotations occur every 25-30 mins. We will also "package" the activities to maximise engagement of the participants.

Sports and Qualifications

Blokart landsailing is an international sport and we actively encourage schools to add it to their curriculum as a sport at the top end of the exhilaration scale. We have a dedicated assessment process to partner with schools offering **Sailing NCEA credits** which can be carried out in the blokarts.

Safety

Velocity Karts is Qualmark Gold assessed and is a leading player in the Blokart landsailing rental community internationally, introducing additional safety measures that have been adopted across the globe. Our safety reputation is of paramount importance. RAMS are available and we are always happy to provide information on our operational safety measures.

SPECIAL PRICING FOR NZ SCHOOLS:

Blokart & Foosball
$39 pp

Blokart, Drift & Foosball
$69 pp

All other activities are complimentary
